VANDERBILT MBA
2015
EMPLOYMENT REPORT
We are very happy to present the Vanderbilt MBA Employment Report for the Classes of 2015 and 2016. It was again a year with great results for our students in the key employment metrics. At three months post-graduation, 93% of the Class of 2015 seeking employment had received an offer of full-time employment and 92% had accepted an offer. The average starting base salary, which has continued to increase in the past four years, is at an all-time high of $108,255, which is a 7% increase in base salary from 2014.

A few other highlights for the graduating Class of 2015 include:

- At the time of graduation, 86% of the class had received a full-time offer, with 81% having accepted an offer, which are very close to record highs for both metrics.
- Continued strength in hiring in the consulting industry. The number of 2015 Owen graduates entering the consulting industry is the largest ever, with 24% of the class accepting positions with consulting firms.
- Strong employment in the technology (19%), financial services (17%) and health care (12%) industries accounts for almost half of the graduating class.
- Geographically students were employed in more than 28 different metropolitan areas across the United States, with the major concentrations outside of Nashville in Atlanta, New York, Dallas and the San Francisco Bay area.
- 78% of full-time accepted offers came from Owen-associated sources such as summer internships, on-campus interviews, job postings, faculty and alumni referrals and career fairs.

The Class of 2016 enjoyed a robust summer internship market, which resulted in a full 100% of first-year students seeking a summer internship accepting an internship by June. Our interns spent the summer in a wide array of industries and job functions in more than 100 different companies across the United States, with approximately one-half returning to campus in August for their second year at Owen with a full-time job offer from their internship.

As the employer demand for MBA talent remains strong, our department continues to work to provide relevant and timely programming and coaching to students as they prepare themselves to take the next steps in their careers. We are also very fortunate to work with fantastic recruiting partners who continue to support and invest in an ongoing relationship with Owen and we have been very excited to welcome new partners that have engaged with us this past year. We are looking forward to an exciting and activity-filled recruiting year in 2015-2016.

Sincerely,

Emily Anderson
Director—Career Management Center
Vanderbilt University
Owen Graduate School of Management

To Friends and Associates of Owen

$108,255
Average base salary
(7% increase from 2014 for an all-time high)

86%
received a full-time offer by graduation

I am interested in hiring Vanderbilt students because they are very smart, but modest. This is truly the strength of the Owen student.

At Mattel, we analyzed the employee performance and longevity of MBA hires from the four great schools where we recruit...two right here in Southern California, one in Chicago and Vanderbilt. The results showed that Owen grads come out on top in both measures.
