FINANCE & ACCOUNTING
FOR NON-FINANCIAL MANAGERS

A three-day program to help you understand the numbers to manage more efficiently

Today’s business climate makes it more important than ever to understand how to use financial systems to control costs, identify customers with potential financial problems and pinpoint opportunities for enhancing profits.

While giving you a foundation in the basics of accounting and finance, this program also shows you how to uncover profit potential hidden in the financial numbers and guide capital to its most productive use.

This program helps you understand the numbers in order to speak the language of business. Through a series of exercises and case studies, you’ll understand what the numbers mean and how to use your company’s financial data to manage more efficiently.

The Bottom Line Value to You and Your Organization

You’ll learn ideas and techniques you can apply right away, including:

- How to assess and recognize financial risks in advance
- Interpreting the financial strength of a product line, division or company
- Methods for identifying factors that improve your cash cycle
- Evaluating and choosing investment projects that maximize company value

“The best hands-on accounting concepts for the non-accounting manager I’ve ever attended!”

“I liked the combination of financial and managerial topics and how they were brought together over the three days. I will now ‘see’ and ‘think’ and make decisions differently thanks to Paul and Germain.”

Your Instructors*

Germain B. Böer, CPA, MBA, PhD
Professor of Accounting; Director of Owen Entrepreneurship Center
Vanderbilt Owen Graduate School of Management

Professor Böer is an innovator in all that he does. His courses use technology and creative assignments that challenge students to think. He conducts experiential learning programs that transform students into self-driven entrepreneurs. Böer joined The Owen School in 1977 as a professor of management accounting after working for Arthur Andersen & Co., the Institute of Management Accountants and two other universities. He currently serves as an advisor to startup companies in the Nashville area and is a member of the editorial boards of Journal of Accounting and Public Policy and Strategic Finance. He has provided consulting services for companies such as Chase Manhattan Bank, the National Heart and Lung Institute, General Electric and Magnatek. Professor Böer is also the past recipient of various Owen teaching awards.

<td>Vanderbilt Owen Graduate School of Management</td>
</tr>
</tbody>
</table>

Paul Chaney joined the Owen faculty in 1984. His landmark study—which found direct correlation between public perception of an auditor’s reputation and a company’s market value—received significant national news coverage in the wake of the Andersen-Enron debacle. Professor Chaney’s principal research interests address the economic consequences and capital market efforts of accounting information. He has published numerous articles, is a member of the American Accounting Association and the Institute of Management Accountants and currently serves on the editorial board of *The Accounting Review*.
